

METHOD AND SYSTEM FOR PROVIDING  
NATIVE LANGUAGE QUERY SERVICE

**Abstract of the Disclosure**

The present invention provides a method and system for providing native language  
5 query service for Internet users by using a plurality of search engines. The method of the  
present invention includes the steps of: (a) receiving at a site an original query request from  
one user; (b) selecting a suitable search engine; (c) translating said query words of native  
language into query words of dedicated language of said selected search engine; (d)  
constructing a new query request directing to said search engine; (e) sending said new query  
10 request and receiving a returned query result; (f) sending said query result back to said user  
as a query result in relation to said original query request.
